## SECTION I – GENERAL INFORMATION AND STATEMENT OF WORK

### 1. INTRODUCTION

- 1.1. Texas Parks and Wildlife Department (TPWD) is seeking qualified contractor(s) to provide land and marine services to transport and place oyster cultch material (oyster shells, clam shells, limestone, river rock, crushed concrete, or other similar cultch material approved by TPWD) within marked boundaries in bay systems along the Texas coast.
- 1.2. This proposal is for turn-key services which include purchasing, loading, transportation, placement of material, and production of deliverables as described herein. Contractor shall provide all labor, equipment, materials and any other need necessary or incidental to move and deploy cultch within the designated boundaries of the project in accordance with the terms and conditions as set forth herein.
- 1.3. Approved cultch materials shall be acquired by Contractor and transported to the designated deployment location by barge or other suitable vessel. All arrangements for labor and equipment required to load, transport and deploy the cultch, including the rental of front-end loaders, backhoes, and trucks and the hiring of stevedores, are the responsibility of the contractor.

### 2. BACKGROUND

Oyster reefs provide a suite of important ecological services including water filtration, provision of habitat for numerous fish and invertebrate species, and provision of product for the commercial oyster industry. The quality and quantity of Galveston Bay's oyster reefs have been negatively impacted by hurricanes, drought, heavy fishing pressure and other stressors. Since 2007, TPWD has restored more than 400 acres of Galveston Bay oyster habitat. Depending upon the funds available and bids received, TPWD plans to restore between 3 and approximately 20 acres of oyster habitat by the fall of 2018.

In June 2017, the Texas Legislature passed a bill which requires shellfish dealers to return 30 percent of oyster shell, by volume, back to the oyster reefs in Texas bays, or pay a fee that allows an equivalent volume to be restored by the State. This Bill will have a large, positive influence on the oyster resources in Texas and is anticipated to account for over 20 acres of oyster restoration from FY 2018 oyster harvest.

### 3. SOLICITATION METHOD AND INTENT

- 3.1 The Request for Proposal (RFP) solicitation method allows qualified respondents to submit a written proposal addressing pricing, qualifications, experience, availability, approach and other factors that will be employed to ensure successful accomplishment of the requirements set forth herein. TPWD will review, compare and evaluate responses based on the criteria and weights identified in this RFP.
- 3.2 It is TPWD's intent to identify qualified Respondents and award multiple Contracts. After award, TPWD will identify individual projects on an 'as needed' basis by issuing a Scope of Work detailing the work to be performed for each project. TPWD will select a contractor that is determined to provide the best value to the agency for each project. It is TPWD's sole discretion to determine best value.

### 4. CONTRACT TERM

- 4.1. Initial Contract Term: The contract shall commence on Date of Award and continue through August 31, 2019, unless sooner terminated under the terms of the contract. The initial projects identified in Section 6. shall be completed no later than December 31, 2018.

- 4.2. **Renewal Option:** Contract(s) may be renewed for up to **two (2)** additional one (1) year periods, provided all parties agree in writing prior to contract expiration date. Any extensions shall be in accordance with the original terms and conditions plus any approved changes.
- 4.3. **Contract Extensions:** In the event that the contract(s), if any, resulting from the award of this RFP shall terminate or be likely to terminate prior to the making of an award for a new contract for the identified products and/or services, TPWD may, with the written consent of the awarded supplier(s), extend the contract for a period of time as may be necessary to permit TPWD continued supply of the identified products and/or services (not to exceed twelve month extension period). Any extensions shall be at the same terms and conditions, plus any approved changes.
- 4.4. **Termination:** The contract shall terminate upon full performance of all requirements contained in the contract, unless otherwise extended or renewed, as provided in accordance with the contract terms and conditions.
- 4.5. **Amendments:** The contract may be amended in writing by mutual consent of the parties.
- 4.6. **Quantities:** Unless this RFP states otherwise, the resulting contract award does not guarantee volume or a commitment of funds.

## 5. QUALIFICATIONS AND EXPERIENCE

- 5.1. **Minimum Qualifications and Experience:** Respondent (and awarded contractor) shall meet the following minimum qualifications:
- 5.1.1 Shall be engaged in the business of land and marine services for a *minimum* of five (5) years within the past five (5) years, producing goods/services similar in type and quantity to those listed herein. Recent start-up businesses do not meet the requirements of this solicitation. (A start-up business is defined as a new company that has no previous operations history or expertise in the relevant business and is not affiliated with a company that has that history of expertise.)
  - 5.1.2 Shall have available the necessary qualified personnel, skills, qualifications, organization, facilities, equipment and supplies required to fulfill all requirements under this RFP and any resulting contract.
  - 5.1.3 Respondent/Contractor must have a Coast Guard certified license to operate or tow vessels within open waters of Galveston Bay.
  - 5.1.4 Shall be in good financial standing. TPWD reserves the right to request a copy of the respondent's audited or un-audited financial statement.
- 5.2. **Supporting Documentation:** Respondent shall complete and submit [Exhibit D – Company Profile](#), [Exhibit E – Key Personnel](#), [Exhibit F – Past Projects with Corresponding References](#) with proposal to provide documentation to support the above qualifications. (Ref: [Section II, Subsection 3.3.](#))

## 6. SCOPE OF WORK AND SPECIFICATIONS

- 6.1 By December 31, 2018, Contractor shall complete the following initial project for placement of cultch material over an area encompassing a minimum of three (3) acres to over twenty (20) acres in Galveston Bay in accordance with the following options and specifications:

- 6.1.1 1,200 cubic yards of cultch will be placed in a three (3) inch layer over three (3) acres within a permitted area located on Pepper Grove reef in East Galveston Bay, in the vicinity of Latitude 29.486, Longitude -94.665.
  - 6.1.2 4,000 cubic yards of cultch will be placed in a three (3) inch layer over ten (10) acres within a permitted area located on Pepper Grove reef in East Galveston Bay, in the vicinity of Latitude 29.486, Longitude -94.665
  - 6.1.3 8,000 cubic yards of cultch will be placed in a three (3) inch layer over twenty (20) acres within a permitted area located on Pepper Grove reef in East Galveston Bay, in the vicinity of Latitude 29.486, Longitude -94.665
- 6.2 Final acreage and cultch material placed will be contingent upon available funds for bid received/awarded. Itemized estimates should be provided for each of the three options. An additional line item estimate should be provided for the cost of additional cultch, reported in price per cubic yard, if additional funds become available.
- 6.3 Approved cultch materials will be acquired by Contractor and transported to the designated deployment location by barge or other suitable vessel. All arrangements for labor and equipment required to load, transport and deploy the cultch, including the rental of front-end loaders, backhoes, and trucks and the hiring of stevedores, are the responsibility of the contractor.
- 6.4 Types of Cultch:
- 6.4.1 Oyster shells, clam shells, limestone, river rock, clean crushed concrete (no rebar), or other similar cultch material approved by TPWD. Cultch must be free of any hazardous substances.
  - 6.4.2 No more than five (5) percent of the cultch material, by volume, may consist of fragments, pieces, fines, or shells smaller than one-half inch ( $\frac{1}{2}$ " ) in diameter. One hundred (100) percent of cultch material should pass through a standard four (4) inch sieve.
  - 6.4.3 TPWD reserves the right to have their representatives inspect all cultch material at the loading site before cultch material is accepted and each barge-load will be monitored at the deployment site. All small particles in excess of the allowed five (5) percent, or otherwise outside of the specifications listed above, will be deducted from the total project cost.
- 6.5 Location: Cultch shall be planted within the general area defined by latitude/longitude coordinates consistent with the attached maps (Attachment 1&2). Specific location boundaries will be established by TPWD upon award of final contract(s) I, but will be contained within the area of the Pepper Grove permit in East Galveston Bay, in the vicinity of Latitude 29.486, Longitude -94.665. Specific sites and final site plan will be determined by TPWD prior to the time of planting and coordinated with the Contractor.
- 6.6 Transportation:
- 6.6.1 Cultch material shall be transported to deployment areas on deck barges (or similar, appropriate vessels) that are loaded to conform to the depth of the water during transit to the deployment site and at the deployment site so as to not damage the bay bottom over which they pass. Such damage will be the responsibility of the contractor.
  - 6.6.2 Tugboats and barges (loaded) must be suitable in size and dimension to not impact the habitat in which it is working.

6.6.3 The environmental resources within the project boundaries and those affected outside the limits of permanent work under this contract shall be protected by the Contractor during the entire period of this contract. The contractor shall confine activities to areas defined by TPWD. Environmental protection shall be as stated in the following subparagraphs.

6.6.3.1 The Contractor shall keep construction activities under surveillance, management, and control to avoid pollution of bays, bayous, or canals with fuels, oils, bitumen, calcium chloride, acid, construction wastes, or other harmful materials to surface and ground waters. All work under this contract shall be performed in such manner that objectionable conditions will not be created in bays, bayous, or canals through or adjacent to the project area. The Contractor shall remove all possible pollutants resulting from this project and dispose of such materials in a method which complies with Federal, State, and local requirements for solid waste disposal. In the event the Contractor encounters any pollutants, not as a result of his actions, the Contractor shall contact TPWD and make reasonable effort to contain the pollutants until proper disposal can occur.

6.6.3.2 The Contractor shall keep construction activities under surveillance, management, and control to minimize interference with, disturbance to and damage of fish and wildlife.

6.6.3.3 The Contractor shall restore all landscape features damaged or destroyed during construction operations during the project. Such restoration efforts will meet the satisfaction of TPWD before approval of final payment for project work is made. Any restoration which is necessary due to damage will be accomplished and completed at the Contractor's expense by a source approved by TPWD.

6.6.3.4 The Contractor shall restore all landscape features damaged or destroyed during construction operations during the project. Such restoration efforts will meet the satisfaction of TPWD before approval of final payment for project work is made. Any restoration which is necessary due to damage will be accomplished and completed at the Contractor's expense by a source approved by TPWD.

6.6.3.5 To ensure proper maneuverability, the tugboat used to distribute the cultch material shall not push or pull more than two (2) loaded barges at one time during deployment.

6.6.3.6 Impacts to submerged habitat are to be minimized by limiting the use of spuds on the barge or tugs and limiting the use of a track-hoe (or similar equipment) to position and/or move the barge.

6.6.3.7 TPWD employees will be onsite to monitor compliance with the terms of the contract. This will include, among other aspects, the even distribution of cultch material during the deployment at locations specified by TPWD.

#### 6.7 Deployment Specifications:

6.7.1 Specific location boundaries for cultch placement will be established by TPWD upon award of a contract and will be contained within the larger permitted area of the Pepper Grove permit in East Galveston Bay, in the vicinity of 29.486, -94.665.

6.7.2 TPWD will provide four corner coordinates for the specific deployment area.

6.7.3 Deployment shall be accomplished only during daylight hours.

- 6.7.4 Throughout the operation, the barge will be maneuvered over the deployment location in a fashion so that cultch will cover the entire area to the needed three inch layer density as determined appropriate by TPWD personnel.
- 6.7.5 The preferred deployment of cultch material will utilize a barge and track hoe to deposit a layer of cultch in a manner such that they are distributed in a single, even layer at a median thickness of three (3) inches. If other deployment methods are to be used, the contractor will be responsible for ensuring distribution of cultch is applied to the required dimensions.
- 6.7.6 No mounds or excessively high elevated areas of spread cultch material will be accepted, unless specified by TPWD. If deviations from the three (3) inch cultch layer placement occurs, the contractor will level the excessively high areas at the discretion of TPWD.
- 6.7.7 After deployment, cultch material shall not cause any unreasonable interference to navigation. Maximum height of placed cultch will not be shallower than three (3) feet from the surface of the water at MLLW. TPWD will conduct post-deployment sonar surveys within one (1) week of final cultch placement to verify that this specification is met. Reduction of reef height to meet specifications will be the responsibility of the contractor at no additional charge to TPWD.
- 6.7.8 Ten percent (10%) of the contract amount will be held until the reef height is verified by TPWD and any necessary leveling has been performed.
- 6.7.9 The contractor will work with TPWD to allow cultch material to be measured by TPWD personnel onboard random barges prior to deployment, in order to estimate the total cubic yards of material provided.
- 6.7.10 TPWD reserves the right to proportionately reduce payment to the vendor for any portion of the load that does not meet specifications.

#### 6.8 Buoy Deployment:

- 6.8.1 At the beginning of cultch placement, the contractor shall install perimeter buoys at site corners. If the distance between two corner buoys of the same side of the restoration site exceeds one-half mile (2,640 ft.), intermediate buoys will be installed.
- 6.8.2 Buoys shall be installed such that they float at least three (3) feet out of the water at high tide. The buoys shall be anchored with a screw anchor with a minimum one (1)-inch galvanized sucker rod and 12-inch screw head inserted 10-feet into the bottom.
- 6.8.3 Coordinates for buoy locations are will be provided by TPWD once the bid contract is finalized; however, upon installation, the contractor shall provide latitude and longitude coordinates for each buoy to TPWD to verify accuracy of placement.
- 6.8.4 Buoys will be provided by TPWD. All other materials (anchors, chain, bolts, etc.) shall be provided by the contractor. Buoys will be in place for a minimum of two years and materials must be galvanized or of a quality to last for that period of time.

#### 6.9 Additional Requirements:

- 6.9.1 The contractor must retrieve any and all debris which is expelled during the deployment. The contractor shall provide a vessel and personnel to achieve this debris collection. The debris collection vessel must be capable of communicating with the captain in charge of the deployment barge.
- 6.9.2 All personnel shall be required to wear a U.S. Coast Guard approved Personal Flotation Device (PFD) while on deck during deployment and while retrieving floating debris.
- 6.9.3 The contractor shall also provide a functioning U.S. Coast Guard approved marine sanitation device (MSD) on either the pump barge or the tug boat.
- 6.9.4 The contractor is responsible for adhering to all applicable federal and state safety requirements.
- 6.9.5 Before any award is made, as a result of proposals received, the contractors under consideration will be required to designate the exact equipment that will be used in the performance of the work and TPWD personnel may inspect the equipment which may be accepted or rejected because it is not considered to be satisfactory for the purpose of this contract. Additionally, all equipment shall be fully equipped with marine safety equipment as required by applicable state or federal law.
- 6.9.6 The deployments shall occur and be completed during the period October 1, 2018 – December 31, 2018. Upon mutual agreement of the specific date(s) of deployment, the contractor will provide TPWD with a written agreement of such.
- 6.9.7 The contractor must coordinate with TPWD on determining the best route to each site in order to prevent impact to other submerged natural resources.
- 6.9.8 Before placement, the contractor will coordinate with TPWD to confirm site planning, design, scope of work, field oversight by TPWD staff, and specific project timelines

Any claim by the Contractor for adjustment under this clause must be asserted within 30 days from the date of receipt by the Contractor of the notification of change, provided, however, that TPWD, if it decides that the facts justify such action, may receive and act upon such claims asserted at any time prior to final payment under this contract. - 22.1. Any proprietary, trade secret or otherwise confidential information Respondent includes in its Proposal must be clearly labeled as proprietary or confidential information, and Respondent must identify the specific exception to disclosure in the Public Information Act (PIA). Merely making a blanket claim the entire Proposal is protected from disclosure because it contains some proprietary information is not acceptable and shall make the entire Proposal subject to release under the PIA. In order for TPWD to initiate the process of seeking an Attorney General opinion on the release of proprietary or confidential information, the specific provisions of the Proposal that are considered by the Respondent to be proprietary or confidential must be clearly labeled as described herein. Any

information which is not clearly identified as proprietary or confidential shall be deemed to be subject to disclosure pursuant to the PIA.

The obligations of the Contractor under this Confidentiality and Security Article shall survive this Contract and shall be included in all subcontracts.
- 26. **TERMINATION:** This contract shall terminate upon full performance of all requirements contained in this contract, unless otherwise extended or renewed as provided in accordance with the contract terms and conditions.
  - 26.1. **Termination for Convenience:** TPWD reserves the right to terminate the contract at any time, in whole or in part, without cost or penalty, by providing 30 calendar days' advance written notice if TPWD determines that such termination is in the best interest of the state. In the event of such a termination, the Contractor shall, unless otherwise mutually agreed upon in writing, cease all work immediately upon the effective date of termination. TPWD will be liable for payments limited only to the portion of work authorized by TPWD in writing and completed prior to the effective date of cancellation, provided that TPWD shall not be liable for any work performed that is not acceptable to TPWD and/or does not meet contract requirements. All work products produced by the Contractor and paid for by TPWD shall become the property of TPWD and shall be tendered upon request. Termination under this paragraph shall not relieve the vendor of any obligation or liability that has occurred prior to cancellation.
  - 26.2. **Termination for Cause/Default:** If the Contractor fails to provide the goods or services contracted for according to the provisions of the Contract, or fails to comply with any of the terms or conditions of the Contract, the TPWD may, upon written notice of default to the Contractor, terminate all or any part of the Contract after providing an opportunity to cure the default.
    - 26.2.1. Contractor will be responsible for paying damages to TPWD including but not limited to re-procurement costs, and any consequential damages to the State of Texas or TPWD resulting from Contractor's non-performance. The defaulting Contractor will not be

considered in the re-solicitation and may not be considered in future solicitations for the same type of work, unless the specification or scope of work is significantly changed.

- 26.3. The rights and remedies of TPWD provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

The exercise of any of the foregoing remedies will not constitute a termination of the Contract unless TPWD notifies the Contractor in writing prior to the exercise of such remedy. The Contractor shall remain liable for all covenants and indemnities under the Contract. The Contractor shall be liable for all costs and expenses, including court costs, incurred by TPWD with respect to the enforcement of any of the remedies listed herein.
27. **SURVIVAL OF TERMS:** Termination of the Contract for any reason shall not release the Contractor from any liability or obligation set forth in the Contract that is expressly stated to survive any such termination or by its nature would be intended to be applicable following any such termination, including the provisions regarding confidentiality, indemnification, transition, records, audit, property rights, dispute resolution, and invoice and fees verification.
28. **RIGHTS UPON TERMINATION OR EXPIRATION OF CONTRACT:** In the event that the Contract is terminated for any reason, or upon its expiration, TPWD shall retain ownership of all associated work products and documentation obtained from the Contractor under the Contract, unless otherwise specified.
29. **CHANGE IN FEDERAL OR STATE REQUIREMENTS:** If federal or state laws or regulations or other federal or state requirements are amended or judicially interpreted so that either TPWD or the Contractor cannot reasonably fulfill the Contract and if the Parties cannot agree to an amendment that would enable substantial continuation of the Contract, the Parties shall be discharged from any further obligations under the Contract.

32. **NOTE TO RESPONDENT:** Any terms and conditions attached to a solicitation will not be considered unless specifically referred to on this solicitation form and may result in disqualification of the response submission. If any respondent takes a 'blanket exception' to the entire solicitation or does not provide proposed alternative language, the respondent's response may be disqualified from further consideration.
33. **ACCESSIBILITY STANDARDS:** Under Texas Government Code, Chapter 2054, Subchapter M, TPWD must procure products that comply with the Accessibility Standards defined in the Texas Administrative Code, 1 TAC 206 and 1 TAC 213, when such products are available in the commercial marketplace or when such products are developed in response to a procurement solicitation. Accordingly, Contractor must provide electronic and information resources and associated product documentation and technical support that comply with these Accessibility Standards (in the form of a Voluntary Product Accessibility Template, or "VPAT") in its response to this RFO. Vendors who do not already have accessibility documentation should complete the form located here: <http://www.itic.org/policy/accessibility/>. No state funds may be paid to an individual or firm whose name appears on this list. TPWD reserves the right, in its sole discretion, to deny and/or exclude any individual or firm from an award whose name appears on this list.
36. **FEDERAL DISASTER RELIEF FRAUD:** Under Section 2155.006(b) of the Texas Gov't Code, a state agency may not accept a response or award a contract, including a contract for which purchasing authority is delegated to a state agency, that includes proposed financial participation by a person who, during the five-year period preceding the date of the response or award, has been: (1) convicted of violating a federal law in connection with a contract awarded by the federal government for relief, recovery, or reconstruction efforts as a result of Hurricane Rita, as defined by Section 39.459, Utilities Code, Hurricane Katrina, or any other disaster occurring after September 24, 2005; or (2) assessed a penalty in a federal civil or administrative enforcement action in connection with a contract awarded by the federal government for relief, recovery, or reconstruction efforts as a result of Hurricane Rita, as defined by Section 39.459, Utilities Code, Hurricane Katrina, or any other disaster occurring after September 24, 2005. Under Section 2155.006 of the Texas Gov't Code, the respondent certifies that the individual or business entity named in this response is not ineligible to receive the specified contract and acknowledges that any contract resulting from this solicitation may be terminated and payment withheld if this certification is inaccurate.

40. **NO WAIVER:** Nothing in this Contract shall be construed as a waiver of the state's sovereign immunity. This Contract shall not constitute or be construed as a waiver of any of the privileges, rights, defenses, remedies, or immunities available to the State of Texas. The failure to enforce, or any delay in the enforcement, of any privileges, rights, defenses, remedies, or immunities available to the State of Texas

under this Contract or under applicable law shall not constitute a waiver of such privileges, rights, defenses, remedies, or immunities or be considered as a basis for estoppels. TPWD does not waive any privileges, rights, defenses, or immunities available to TPWD by entering into this Contract or by its conduct prior to or subsequent to entering into this Contract.

41. **NO LIABILITY UPON TERMINATION:** If this Contract is terminated for any reason, TPWD and the State of Texas shall not be liable to Contractor for any damages, claims, losses, or any other amounts arising from or related to any such termination.
